

Lions Helping Lions

Soccer Booster Parents and Players:

Senior Night, Monday, January 18, 2010, is the designated night to wrap up our "Lions Helping Lions" Service Project. Last year, I helped put together this service project for the soccer team. This year, for our 2nd annual Lions Helping Lions, Maclay School has agreed to join us in our efforts.

We are collecting used prescription and non prescription glasses, reading glasses, and sunglasses. These glasses are taken to a local prison where they are cleaned, repaired, and identified by prescription. They are sent by The Lions Club International on mission trips to third world countries and are dispersed to those in need.

Last year my neighbors got involved. I created the flyer which I have attached and took to each house on my street. (You can use it as a template and put in your info.) I put a box at my front porch and people brought donated glasses there. I plan to put out my neighborhood flyer the first week of January. Also, Kate Sullivan Elementary School and Cobb Middle School joined us last year, and they plan to this year.

Please help by asking for collections in your own neighborhood, church community, and places of business. Last year we collected just over 500 pairs of glasses. Let's show that true Lion Helping Spirit and break that record this year.
